

# Composite Fabrication Technician

## Full-Time / Los Alamitos, CA USA

### Position Summary:

The Composite Fabrication Technician provides hands-on labor for support of manufacturing and laboratory work. Requires high precision production techniques using fragile materials to fabricate space flight hardware. Technician must be self-directed to accomplish scheduled objectives, requiring limited supervisory oversight.

### Essential Job Duties:

- Hand cut and layup graphite and fiberglass prepreg onto a table, mold or tool.
- Performs manufacturing duties including cutting and fitting composite details and bonding details into assembly configurations.
- Carries out tasks using basic hand tools including calipers, micrometers, gauge pins, scales, height gauges.
- Reviews and interprets engineering documentation.
- Responsible for fabrication of composite parts and tooling and laboratory support.

*Duties and responsibilities may be added, deleted, modified or changed at any time at the Company's discretion. Changes may be made formally, informally either verbally or in writing.*

### Knowledge and Skills:

- Experience with one or more of the following: Pre-Preg Lamination, Ply Cutting, Vacuum Compactions, Oven Cures, Core consolidation
- Experience working with tools commonly used: scissors, Stanley blades, protractor, scales, straight edge.
- Experience with power tools and machine shop equipment is a plus.
- Ability to read engineering drawings and specifications.
- Ability to support stringent deadlines and handle multiple priorities simultaneously.
- Ability to speak, read, and write English and comprehend written work instructions.

### Education Qualification and Experience:

- High-School diploma or GED.
- Requires 2-5 years experience in aerospace composites, or similar manufacturing industry.

### Work Environment:

Job duties are to be performed primarily in the panel fab/layup area of the shop floor but are not limited to this area as the work needs arise.

### Physical Requirements:

- Ability to safely stand or sit for 95% of the working shift.
- Ability to use arms, hands, wrist and fingers to work with and perform lay-up and fabrication techniques.
- Be able to carry 25lbs for a distance of 200 feet.
- Ability to read, write and converse in the English language.
- Stretch and bend over large working areas and tables.
- Required PPE may include: gloves, dust mask, safety glasses, respirator (paint/lab process)

### Work Schedule:

1<sup>st</sup> shift: 5:00 am to 1:30pm

2<sup>nd</sup> shift: 1:00pm to 9:30pm

Shift assignment will be based on company need and technician skill level and fit within the existing team. Requirements may change depending on customer needs, this start time could be moved forward or backward to support the delivery schedule. The standard workweek is Monday through Friday, 8 hours per day. Pre-shift, post-shift and weekend overtime may also be required.
