

Quality Assurance (QA) Inspector, I – III

Full-Time / Los Alamitos, CA USA

Alliance Spacesystems LLC has an immediate need for a Quality Assurance Inspector. A 40-hour workweek is standard but at times additional hours may be required to fulfill the duties and responsibilities named above.

Position Summary:

The QA Inspector will be responsible for performing the dimensional and/or visual inspections of Alliances' Flight Hardware in various stages of assembly which include but are not limited to; composite material ply' lay-up, post cured assemblies; face sheets, boom tubes or cylinders for cosmetic anomalies and the associated cure (charts) profiles.

The QA Inspector will also be required to verify the hardware's Assembly Traveler corresponding Operation or, a given sequence of operations that were performed prior to the specified operation (as applicable) when responding to assorted inspection calls.

Additionally the QA Inspector may verify/accept new Mylars prior to shops use and perform panel pre' close-out inspections, insert and fitting's foot printing or, pre/post bonding verifications and the Final Hardware's; Panels, Yokes, Booms or Structures packaging for ship verification prior to their being delivered to the customer or an Alliance Affiliate's location.

The Quality Inspector may frequent or infrequently interact with members from one or more of the following departments; Engineering (ME / QE), Manufacturing (Shop / Material Control / Shipping) or Program Management (PM) throughout the course of the shift/day to provide inspection activity feedback regarding the hardware's acceptance or in-work progress as applicable across various program's build activities.

Essential Job Duties:

- Responds to inspection calls on a daily basis as directed by the Quality Supervisor.
- Applies Knowledge of GD&T principles in the interpretation of Alliance or Customer furnished Engineering Specifications (Dwg' / Standards) to perform inspections.
- Uses assorted hand-held IMTE such as but not limited to calipers, micrometers, height-gauges, Depth-Gauges and Go-No-Go or Feeler Gauges to verify hardware dimensions.
- Performs in-work review and accuracy acceptance of Assembly Traveler or Blue Cards i.e., rework instructions.
- Generates the hardware's AS9102 DIR in a timely manner (as required).
- Will perform or support First Article Inspections FAIs (as required).
- Initiates Nonconformance Reports that include Surface Condition Map(s) SCMs, (as required).
- Uses the Alliance Repository to research/retrieve documents.
- Notifies Quality Supervisor, Program QE or, QM (as applicable) when non-conforming hardware conditions arise.
- Creates the Hardware's Acceptance or Rejection Tags (as applicable).
- All other duties as requested.

Please note this job description is not designed to cover or contain a comprehensive listing of activities, duties, or responsibilities that are required of the employee for this job. Duties, responsibilities, and activities may change at any time without or with notice.

Knowledge and Skills:

- Good interpersonal and communication skills.
- Ability to work in a fast-pace and dynamic environment.
- Experienced using a PC and Microsoft Word and Excel.
- Proficient in reading engineering drawings and a familiarity of GD&T Principles (desired).
- Ability to organize work and complete assignments on schedule or within the specified time.
- Experienced or Knowledge of AS9100 QMS & AS9102 Reporting Systems
- Knowledge in the application of IMT&E and Calibration requirements.
- Familiarity with Non-Conformance Reporting Systems.

Education, Qualification and Experience:

- Minimum (5 - 7 years) of Quality Inspection in an Aerospace, Composite Manufacturing or Machine Shop environment (preferred).
- High School Diploma or GED.
- Technical or Vocational Training is a plus.
